

# Art as Acoustic

# 04

Through collaboration with artists and designers Vibe facilitates the creation of bespoke pieces that will absorb sound and bring their art inspiration to a space through a new materials medium.

**Richard Fischer Art  
Printed on Vibe Calmtone  
with LEDs backlit frame**

Vision collaborates with the artist Richard Fischer promoting interaction between contemporary art and environmental consciousness is the creative process with which art can best help stimulate the dialogue for increased sustainable awareness.

### Japanese Avian Artistry printed on Fabric and Felt

The Vibe team selected a beautiful scene of cranes in flight. The image was printed onto a wool fabric by Vibe. The fabric was then wrapped onto a 25mm Vibe "calmtone" sound absorbing felt. The simple wooden frame created a large acoustics piece of art that created the perfect blend of art and acoustics performance.

### Framed Map Art

The Vibe team digitally procured a 17th century map of Dublin and printed onto a wool fabric.

The fabric was wrapped onto a 50mm Vibe "Calmtone" acoustic felt and placed in a large 100mm deep wooden frame.

The resulting piece of art has a number of details that make it unique in its acoustic performance and visual aesthetics.

### Brushed Elegance

Oil Painted masterpiece.

VIBE Vision

---

### Project: SIG

The modern geometric lines and shapes combined with calming colours created a feeling of space in a small room.

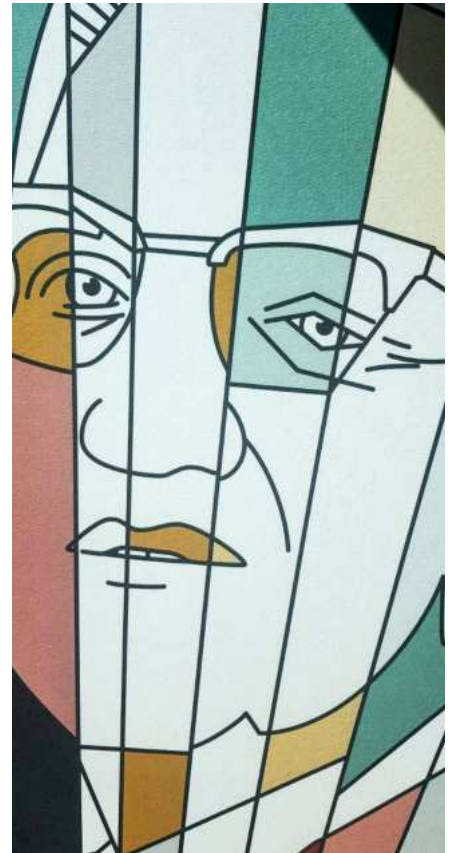

### Google Amsterdam

Create a space that reflects the passion and innovation of Dutch art and controls noise pollution in smaller offices.

Google required a design style that communicated the culture of a team in the Amsterdam office.

The Vibe design team commissioned and procured local Dutch artists to create a series of images approved by the client's internal stakeholders.

The Vibe team digitally scanned the art and printed the 50mm Vibe Calmtone sound absorbing panels to reach a class A acoustic performance and create a dynamic and edgy feel to the meeting rooms.

# Fin DAC

## Art as Acoustic

Photography: Rankin

### Fin DAC x Vibe by Vision: Art Meets Acoustic Function

Fin DAC, a prominent figure in urban art, is known for his unique portrayal of Eurasian women, marked by bold colors and the distinct eye masks that have become his signature. His style, which he calls “Urban Aesthetics,” brings a quiet intensity to his subjects, combining strong visuals with subtle cultural narratives. Fin DAC’s murals appear in cities worldwide, exploring identity and empowerment through imagery that feels both grounded and thought-provoking.

### The Art of Fin DAC

Fin DAC’s work is widely recognized for its clean lines, strong contrasts, and the balance of color and form. His figures, often portrayed with powerful gazes and vibrant masks, capture a sense of individual strength and presence. This approach has allowed him to create an identifiable aesthetic, bridging cultural influences while maintaining a minimalist, impactful style.

**“My Goal is to create art that adds beauty and colour to the urban landscape, fostering inspiration and creativity within communities”**

### Collaboration with Vibe by Vision

Partnering with Vibe by Vision brings Fin DAC’s artwork into a new setting: interior acoustic design. Vibe by Vision specialises in creating acoustic solutions that blend functionality with aesthetics. This collaboration allows Fin DAC’s iconic style to be adapted to indoor environments, where his artwork can contribute to both the visual and acoustic quality of a space.

Through this partnership, his designs are incorporated into high-performance acoustic panels, balancing sound absorption and aesthetic impact. The collection includes:

### Custom Acoustic Panels

Featuring Fin DAC’s figures, these panels bring his artwork into spaces where sound control is essential. Each piece serves both as an art installation and a functional acoustic element

### Integration of Color and Material

Fin DAC’s bold colors and defined shapes are adapted to Vibe by Vision’s materials, allowing his art to retain its impact while serving a practical purpose in various interior settings.

### Tailored Installations

Designed for corporate, hospitality, and residential spaces, each piece is crafted to meet both aesthetic and acoustic requirements, fitting seamlessly into different environments.

### Art with Purpose

This collaboration with Vibe by Vision allows Fin DAC’s work to enhance interior spaces, contributing to well-being through both visual and acoustic improvements. Together, they create pieces that complement the atmosphere of a room, merging artistry with practicality.

**The Fin DAC x Vibe by Vision collection is available for those seeking a blend of art and acoustic function.**

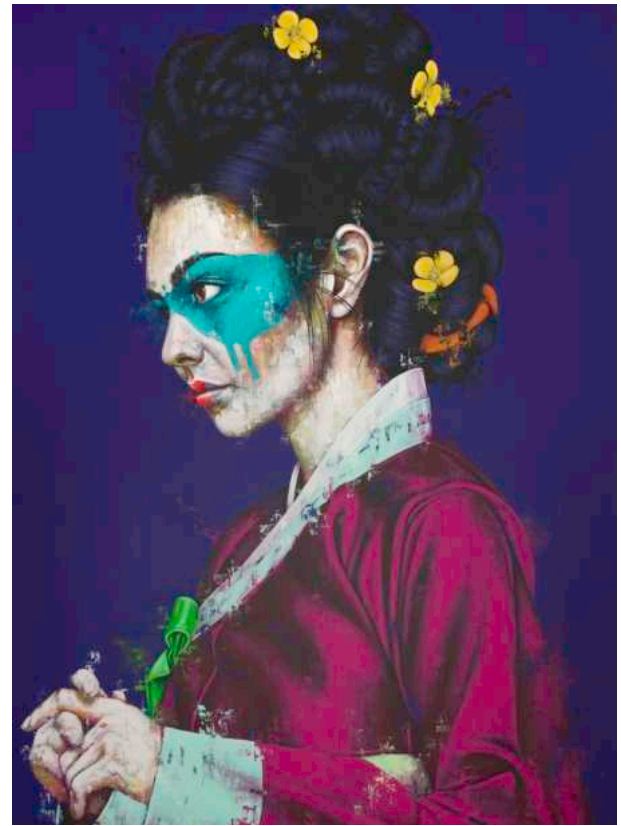

### The Collection

Fin DAC's work captures a unique blend of strength and subtlety, with bold portraits marked by his signature eye masks and vibrant colors. His art explores themes of identity and empowerment, making each piece both visually striking and thoughtfully composed, inviting viewers to connect on a deeper level.

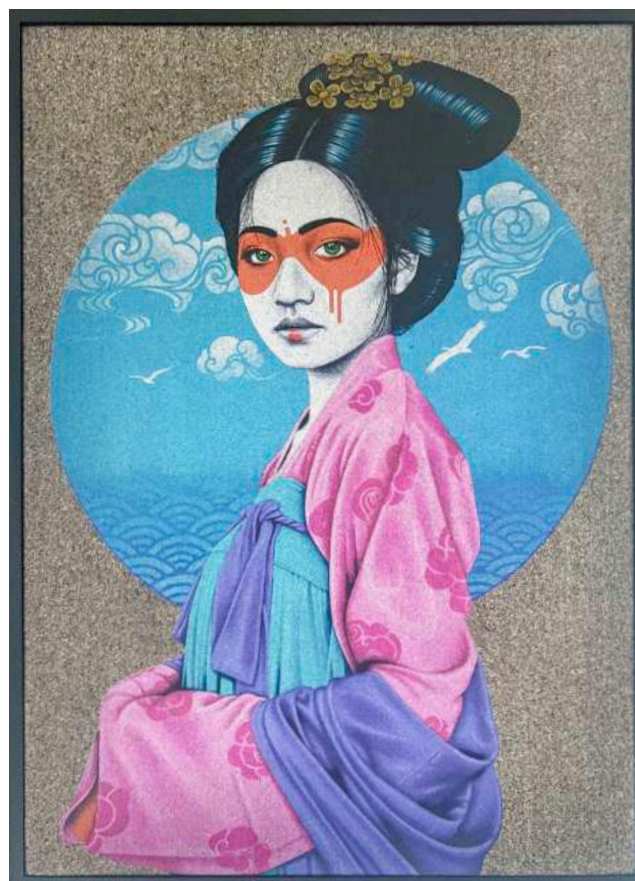

**Artist: Fin DAC**

This exclusive collaboration brings together the iconic style of artist Fin DAC and Vibe's expertise in acoustic design. Fin DAC's signature artworks have been printed on Magee's high-quality fabrics, combining art and textile craftsmanship.

These pieces are seamlessly integrated into Vibe's Bass system, offering not only visual impact but also enhanced acoustic quality. This fusion of art, fabric, and sound creates an immersive installation that elevates both aesthetics and function within any space.

## The Modernist collection

These modernist inspired collection of designs combines a contrast of depths, Magee patterns and colours with the inclusion of a copper line.

This unique mix creates an engaging art piece combining elements of touch, aesthetics and sonic function as it absorbs sound and noise.

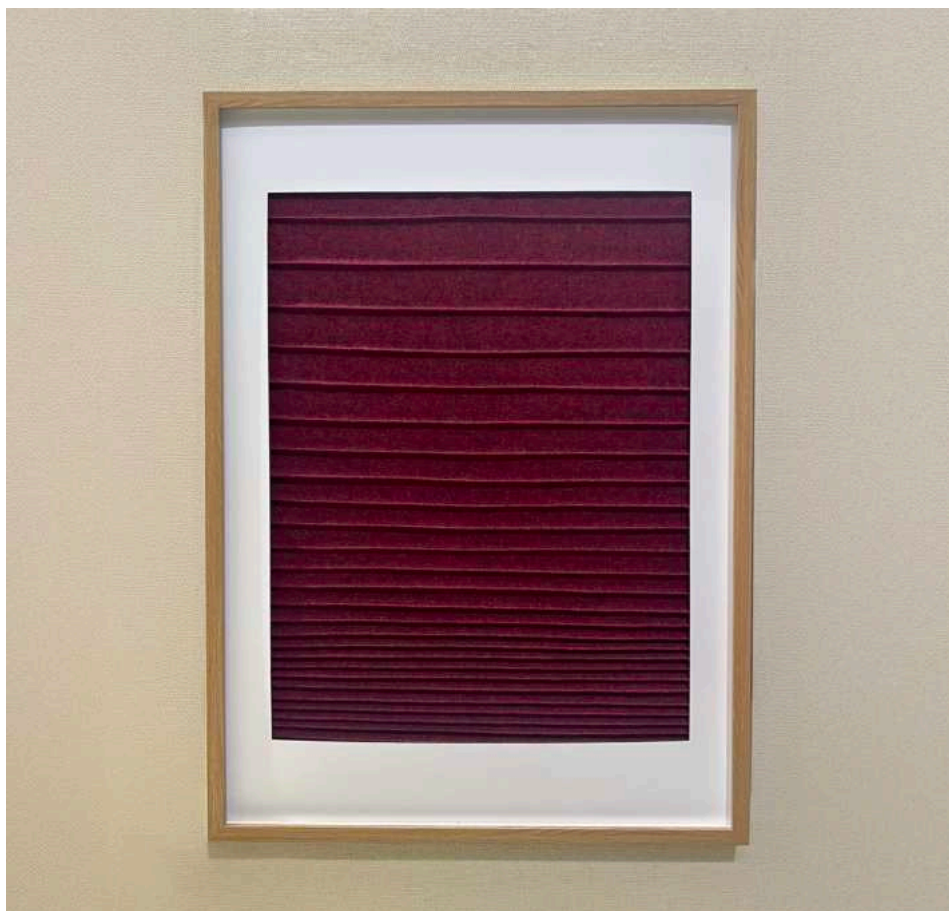

The options to place halo lighting at the rear of the panels give another dimension of warmth and function. A large range of colours, shapes and sizes can be combined from the Magee range.
