

Vibe Modular Desk Screen System

21

Vibe by Vision Modular Desk Screen System is a fantastic way to divide the worker's personal space, reduce sound, add colour and style in any open plan space, plus enhancing the acoustic performance of every office space, and makes it a better place to be in.

Our desk screen both absorbs noise and is tackable.

The desk screens are fully customizable for size, shape and colours.

The Vibe by Vision modular deskscreens are one of a kind, eco-friendly and carbon reduced alternative to fabric-covered desk screens.

Our panels are made from 60% recycled plastic water bottles.
